Congressional processes tens of thousands of pounds of seafood every day, so it has invested in the latest equipment, including portioning machines with sophisticated sensory systems that fillet with exact precision so that every order is customized.

Congressional Seafood invites others to tour its new facility. Old

and new customers are encouraged to contact their sales representative to arrange a visit. I found it well worth the trip. For more information, contact Congressional at: 1-800-991-8750.
